

## **Thread STL Facilitation Learning Cohort Peer-to-Peer Learning Session – Question Guide**

This one-pager is intended to guide your thinking as you prepare to share and discuss your experiences with facilitation. You don't need to cover all of these when you share with your small group, but they might be a helpful place to start! You may also find it useful to revisit your Facilitation Self-Assessment to help frame the things you share with your group.

- 1. Think about your past, current, or future experiences facilitating group meetings and/or collaborative efforts. Is there a group/collaborative effort you facilitate regularly that you'd like some help with? Provide some background on the group/collaborative effort.*
- 2. What skills/tactics do you struggle with most as a facilitator?*
- 3. What one skill/tactic would you most like to receive some feedback on during the next meeting?*
- 4. Do you have specific questions you'd like the group to help you think through?*
- 5. What additional information might you share with your small group to help them better understand your questions for them?*
